Independent Accountant's Report

We have examined management's assertion included in the accompanying Corporation for Public Broadcasting (CPB) Schedule of Non-Federal Financial Support that WOSU-FM complied with CPB's Fiscal Year 2020 Financial Reporting Guidelines governing the amounts reported as Non-Federal Financial Support (NFFS) during the fiscal year ended June,30,2020. Management is responsible for WOSU-FM 's compliance with those requirements. Our responsibility is to express an opinion on management's assertion about WOSU-FM 's compliance based on our examination.

Our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants and, accordingly, included examining, on a test basis, evidence about WOSU-FM 's compliance with those requirements and performing such other procedures, as we considered necessary in the circumstances. We believe that our examination provides a reasonable basis for our opinion. Our examination does not provide a legal determination on WOSU-FM compliance with specified requirements.

In our opinion, WOSU-FM complied, in all material respects, with the aforementioned requirements for the fiscal year ended June,30,2020.

WOSU operates as a joint radio/television licensee and when donations are made, they support the organization as a whole. WOSU is following the practice of other public broadcast joint licensees with a 75%/25% split in membership revenues between TV/radio. The split is comparable to the overall allocation of TV and Radio grants through the CPB and is generally representative of the higher television versus radio operational costs and of the overall audience using those services. WOSU operates as a joint radio/television licensee and when donations are made, they support the organization as a whole. WOSU is following the practice of other public broadcast joint licensees with a 75%/25% split in membership revenues between TV/radio. The split is comparable to the overall allocation of TV and Radio grants through the CPB and is generally representative of the higher television versus radio operational costs and of the overall audience using those services.
